

FRUBES

BULL'S EYE CHALLENGE

MATERIALS NEEDED:

A pack of chalk, a marker (sponge, mini bean bag or a rolled-up sock).

1. Using your coloured chalk, draw several big target rings, one inside the other.
Fun tip: Within each ring, write point values if you want to brush up on your maths skills!

2. Stand a few feet back. Before tossing your marker, spin around 5 times and then toss your marker at the target - aim for the middle to get more points!

3. Take turns with your friends or siblings to throw your markers and keep a running total of your scores.

4. Once everyone spins and throws, go again, but this time throw the marker with your other hand to add an extra challenge!

5. Whoever gets closest to the bull's eye (or gains the most points) wins!

CALCIUM + VITAMIN D
FOR HEALTHY BONES

MATERIALS NEEDED

A pack of chalk, a marker (sponge, mini bean bag or a rolled-up sock).

STEP 1 Using your coloured chalk, draw several big target rings, one inside the other. Colour each ring with your favourite colours from the chalk pack.

STEP 2 Stand a few feet back and toss your marker at the target - aim for the middle to get more points!

STEP 3 Take turns with your friends/siblings to throw your markers and keep a running total of your scores.

STEP 4

WHOEVER GETS CLOSEST
TO THE BULL'S EYE WINS!
