## OLYMPIC RING HOOPLA CHALLENGE

### MATERIALS NEEDED:

A pack of chalk, 3 small recycled plastic bottles, 5 large paper plates, sand or rice, paint in gold, silver, bronze, scissors.

**1.** Paint one bottle gold, one silver and one bronze. Leave the bottles to dry. (If you do not have paint, stick a sticky note to each bottle and label them gold, silver and bronze!)

**2.** Paint the rims of the paper plates, one in each of the colours red, green, blue, black and yellow- if you do not have paint, use your chalk!

**3.** Fill each of the bottles 1/3 full of rice or sand to weigh them down and sealed tight.

**4.** Cut the centre from each plate so you are left with rings, ask an adult for help if needed.

**5.** Set up the bottles and toss the cardboard rings over. You can score 1 for bronze, 2 for silver and 3 for gold.
